ADDITIONAL C.O.M. APPLICATION INFORMATION

If a specific fabric application is desired, it must be noted on the original order. Unusual requests will incur an additional charge. If no instructions are supplied, the layout will be determined by our cutting staff for the best pattern placement and yield. If the face of the fabric is not specified, we will use the "rolled-in" side as the face. Stripes and patterns will be run vertical, unless noted otherwise. If a fabric has a nap, we will run it smooth from top to bottom or to the left unless requested not to do so, or a pattern determines otherwise.

See "Yardages" in the General Information section for additional important information.
